6. INFORMATION FOR ASSESSMENT PURPOSES

6.1 PRACTICE AREA

All applicants are assessed for competence in their personal practice area. Refer to document *Instructions to fill in Ca01 application* for more information.

Use 15 to 25 words to describe your practice area - describing both the nature of your engineering activities (using words like 'design', 'production', 'construction monitoring' or 'certification') and the area in which you have current knowledge and skills (using terms like 'electricity generation and reticulation', 'biomass fuels', 'roading networks', 'heavy road transport vehicles' or 'reinforced concrete structures'). Use 'bullet point' type statements rather than full sentences. Include supporting evidence for everything specified in your practice area description and exclude things from the practice area description that are not supported by evidence. [NB – those seeking registration as a Registered Structural Engineer under the Building Act 1977 should include 'Designer of Seismic Capable Structures in accordance with the detail requirements of the PNG Codes of Practice (or internationally equivalent) in their practice area description.]

Please copy this information into your Referee Declaration and Evaluation (Form CA06).

-

6.2 PRACTICE FIELD(s)

Please select one but no more than two engineering practice field(s) within which you believe your practice area best fits. This information is only used for selecting suitable assessors and has no relevance to your assessment outcome.

Refer to *Instructions to fill in Ca01 application* for information.

6.3 WORK SAMPLES

You are required to present work samples as evidence that you are **‘still able to practice competently’** as an engineer.

Refer to *Instructions to fill in Ca01 application* for information.

Summarise below is what your work samples show:

- The technological, regulatory and ‘good practice’ changes that have occurred in your practice area and
- The actions you have taken to keep abreast with the changes in your practice area?
- The factors that contribute to the complexity of your engineering work?
- You are still able to practice competently as an engineer.

6.4 COMPETENCE ASSESSMENT – EVIDENCE CHECKLIST

You may send your portfolio of evidence in electronic or printed form. If your portfolio of evidence is over 2 MB in size, do NOT email it but send it by memory stick or CD. If you send your portfolio of evidence in printed form, you **must** send 1 copy. Refer to the Competence Assessment Registration Guide (CARG) for details of the documentation requirements:

Check that you have completed all the required documentation and tasks below	Number copies required if printed	Please Tick

NOTES : FEES PAYMENT FOR ASSESSMENT FOR ADMISSION/REGISTRATION

- A. For an Applicant who is already a Technician, Graduate or Professional Member (equivalent to the Grade being applied for) of an overseas institution recognized by the IEPNG (eg Engineers Australia), the Application Fee shall be the same as for Engineers qualified in Papua New Guinea. In this case, any excess Application Fee received will be offset against the Registration Fees for the duration of the registration period.
- B. The Professional Engineers Registration Board (PERB) uses the Institution of Engineers PNG Inc (IEPNG) Board's assessment procedures to approve Membership to IEPNG and Registration to PERB. The Registration and Membership requirements are identical and there is no provision for an Engineer to be registered without becoming a Member of the Institution. Any person involved in any related engineering work in PNG MUST be registered with PERB and MUST be a Member of IEPNG. It follows that all Registration Fees are inclusive of Membership Fees and vice versa.
- C. The classifications/categories of Members paying Membership Fees ONLY and no Registration fees are as follows: Student Members, Graduate Members, Technician Members, Companion Members or any Member, or Fellow who is residing overseas and not involved in any Engineering work related to projects etc in Papua New Guinea.

- D.** This fee applies to those non-citizens who are only applying for registration now, although they have been in the Country for more than 3months and have been working in engineering related activities during their stay in Papua New Guinea.
- E.** This fee applies to PNG nationals or citizens who are automatically Members of South Pacific Engineers Association (SPEA).
